To Whom It May Concern,

This letter is confirmation that we, Bruin Spacecraft Group at UCLA, have accepted the petition of the Micro-g NExT team "The Ice Fishers at UCLA" to perform outreach activities at our booth at Exploring Your Universe Day, November 5th, on UCLA's campus.

As a member of our Sandbox Open Competition Initiative, the team will be representing our student organization as they interact with the thousands of local children and their parents that attend this annual event. We have reviewed and approved their proposed outreach plans for this event, and are eager to see them in action.

Please reach out to us if you require any further information.

Sincerely,

A handwritten signature in black ink, appearing to read "Andrew Evans", is positioned below the word "Sincerely,".

Andrew Evans
President, Bruin Spacecraft Group
