To Whom It May Concern,

As the faculty advisor for an experiment entitled "M.E.L.T." proposed by a team of undergraduate students from University of California, Los Angeles, I concur with the concepts and methods by which this project will be conducted. I will ensure that all reports and deadlines are completed by the student team members in a timely manner. I understand that any default by this team concerning any Program requirements (including submission of final report materials) could adversely affect selection opportunities of future teams from University of California, Los Angeles.

Thank you,

Dr. Tsu-Chin Tsao
